

ARGUS

Traditional catastrophe tools show where an event happened.
ARGUS shows where its consequences travel.

Nissan's plants weren't damaged.
Nissan stopped anyway.

Kyushu earthquake, July 28, 2026

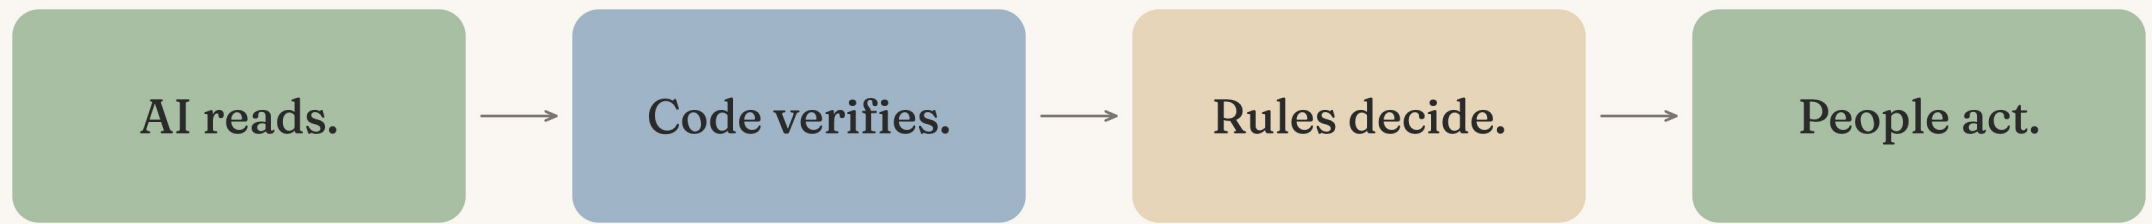

Physical impact ends here.
Economic exposure doesn't.

Live demo

Kyushu 2026 → Aisin Kumamoto → Lakeshore Drivetrain Supply

The AI reads everything. It decides nothing.

The bigger earthquake was the smaller problem.

Taiwan 2024

M7.4

Recovered within days

ARGUS: STAND DOWN

Kyushu 2026

M6.8

Key suppliers halted

ARGUS: ESCALATE

Magnitude measures the event. ARGUS measures the exposure.

Built for Chubb's major accounts.

01 See exposure a catastrophe map can't show.

02 Every alert backed by verified evidence.

03 Unknown stays unknown. People stay in charge.

Thank you.

Questions welcome.
